

AAC CHIFFON VB Soft Wheat

AAC Chiffon VB Soft Wheat is high yielding soft wheat of medium tall stature, with an awned spike and hollow stem. It has good straw strength, good shattering resistance, and a high kernel weight. It is well adapted to soft wheat growing areas of the western Prairies. Developed by Agriculture Canada (LRC) Lethbridge. Principle breeder: Harpinder S. Randhawa, Ph.D. Parentage: AC Reed/SWS53

Strengths:

- ✓ High yielding
- ✓ Performs well under dry conditions
- ✓ Resistant to stripe rust and powdery mildew.
- ✓ Moderate – Intermediate resistant to leaf rust.

Other Attributes:

- Days to maturity are comparable to AC Andrew
- Slightly taller than AC Andrew or Sadash
- Good straw strength but slightly higher lodging score than AC Andrew

From the 2017 Alberta Seed Guide

Variety	Overall Yield (% of AC Andrew)	Maturity	Protein (%)	Height (cm)	Lodging Resistance	Shatter Resistance	Stripe Rust
AC Andrew	100	L	10.8	79	VG	VG	I
AAC Indus	102	VL	-0.6	87	VG	VG	MR
AAC Chiffon VB	104+	L	-0.4	88	G	VG	MR
AC Meena	97-	L	0.0	80	G	G	MR
Sadash	110+	L	+0.2	82	VG	VG	R
