

AAC Gateway is a CWRW line bred by Dr. Robert J. Graf at the Lethbridge Research Centre, crossing CDC Osprey/N95L 1226. This variety is ideally suited for growers in areas of Alberta, Manitoba and Eastern Saskatchewan. Owned by Seed Depot, MB.

## Strengths:

- ✓ Yield similar to Radiant
- ✓ Shorter straw
- ✓ FHB Resistance
- ✓ Excellent disease package
- ✓ Very good lodging resistance
- ✓ High protein
- ✓ Excellent milling characteristics
- ✓ Medium Maturity

From the 2016 Alberta Seed Guide

Variety	Yield (% of Radiant)	Winter Survival (%)	Maturity	Protein (%)	Height (cm)	Lodging Resistance	FHB	Stripe Rust	Stem Rust
