

LACROSS FORAGE PEA

Lacross Pea is a semi-leafless forage pea developed in Europe for green manure and silage.

Strengths:

- ✓ High potential for green- and dry-matter production
- ✓ Yields comparable to older leafy types
- ✓ Very good standability/lodging resistance
- ✓ White flowers mean tannin-free
- ✓ Well suited to mixed cropping
- ✓ Highly competitive
- ✓ High Protein Yield

Other Attributes:

- ✓ Medium seed size
- ✓ Medium flowering date
- ✓ Early to medium maturity
